Objective

Highly motivated Full Stack Web Developer with a passion for creating efficient, user-friendly, and innovative web applications. Bringing a solid foundation in both front-end and back-end development, along with a keen eye for design and a dedication to delivering high-quality solutions. Committed to staying updated with the latest technologies and best practices in the industry to contribute effectively to dynamic development teams

Education

Bachelor of Technology in Mechanical Engineering Narayana Engineering College	2019 – 2023 GPA: 7.15
Viswasai Junior College Board of Intermediate Education, Andhra Pradesh	2017 – 2019 GPA: 8.11
Narayana High School Board of Secondary Education Of Andhra Pradesh	2016 – 2017 GPA: 8.7

Projects

StyleSync / Reactjs, CSS, bootstrap, nodejs, express.js, mongodb [LIVELINK](#)

- Developed a responsive eCommerce platform using the MERN stack to facilitate seamless shopping experiences.
- Implemented user authentication and authorization features, enabling secure user registration, login, and role-based access control
- Created a dynamic product catalog with search and filtering options for improved product discovery.

Car Rental/ Reactjs, CSS [LIVELINK](#)

- Crafted the frontend with ReactJS, capitalizing on its component-based design for streamlined and maintainable code.
- Constructed a backend with Node.js and Express.js, capitalizing on their agility and scalability to manage data.
- Developed personalized seller profiles to exhibit products, reviews, and business details, bolstering user trust and choice.

Youtube clone / Reactjs, Rapidapi, tailwindcss [LIVELINK](#)

- Leveraged React to craft a dynamic and engaging YouTube clone, harnessing its component-driven structure for a polished user interface.
- Employed Tailwind CSS to stylishly design components, ensuring a sleek and modern aesthetic that aligns with YouTube's appeal.
- Seamlessly integrated RapidAPI to fetch real-time data, such as video information and user interactions, enhancing the clone's authenticity.

Technical Skills

Frontend: HTML, CSS, JavaScript, ReactJS.

Backend: Nodejs, Express.js, Mongodb.

Others: Git, Linux, Basics of AWS.

Certifications

- CS50: Introduction to Computer Science - Harvard University.
- Complete React Bootcamp with Hands-On Projects.
- Complete HTML, CSS, JAVASCRIPT with Hands-On Projects.
- Cybersecurity Essentials by Cisco Networking Academy.
